

# Enhance Guest Experiences with Reliable Hotel Wi-Fi

Deliver Seamless Connectivity and Centralized Management with Omada

## Omada for Hospitality

TP-Link Omada's Software Defined Networking (SDN) platform integrates network devices, including access points, switches, and gateways, providing centralized cloud management. This enables hotels to offer a superior guest experience through ultra-fast wireless and wired network connectivity.

## Omada Benefits for Hotels

### ✓ Customized Guest Experiences

Use Captive Portal for promotions and secure guest network access.

### ✓ Network Segmentation & Security

Define user profiles with SSIDs, VLANs, and access control.

### ✓ Seamless Roaming

Ensure uninterrupted voice and video streaming throughout the hotel.

### ✓ Simplified Deployment

PoE support and zero-touch provisioning for efficient, cost-effective installations.

### ✓ Top-Tier Connection Performance

Omada Wi-Fi 7 and Wi-Fi 6 Access Points ensure fast, efficient connectivity.

### ✓ Wired & Wireless Excellence

Multi-Gigabit Ethernet and seamless Wi-Fi coverage indoors and outdoors.

### ✓ Centralized Management

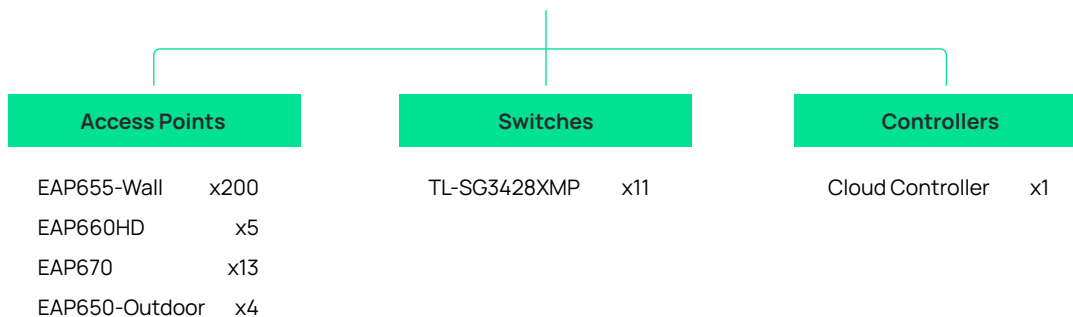

Manage devices remotely from a unified web interface or the Omada App.

## ○ Omada Product Spotlight
